EXAMINER'S COMMENT

Allowable Claims

1. Claims 12, 14, 15, 18-20, 29 and 30 are allowed.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: Applicant amended independent claim 12 to recite that the first facing layer has a tackiness measurement of 0.5 to 5.0 N and a second layer tackiness measurement of 0.05 – 1.0 N. Since such a tackiness is dictated by the composition of the facing layers as well as the composition of the substrate, and Steer does not disclose or suggest both first and second facing layers that are discrete layers of silicone gel compound, nor does Steer disclose or suggest any tackiness measurements for a first facing layer and a second facing layer since Steer only fairly suggests a second facing layer, there is no motivation for one of ordinary skill in the art to first modify the article of Steer to have a first facing layer, then modify the first facing layer to be made specifically of silicone gel and then further modify both the first and second facing layers to have tackiness values within the respective claim ranges. Therefore the amendment to claim 12 overcomes the closest prior art combination of Steer and Argenta/Lockwood/Henley and Lawry to meet all of the claim limitations. Claims 14, 15, 18-20, 29 and 30 depend directly or ultimately from claim 12 and are thus also in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
